We are a nonprofit organization that works to advance **safe walking and bicycling** to and from schools, to improve the health and wellbeing of kids of all races, income levels and abilities and to foster the creation of healthy communities for everyone.
WHAT WE DO

• Improve quality of life for kids, families, and communities
• Advance policy change at the federal, state, regional, and local levels
• Catalyze support for safe, healthy, active communities
• Share our deep expertise
We put community members at the center of the process so that their ideas and priorities directly shape the planning, program, and policy outcomes.
Stakeholders come to the table each with their own set of concerns and priorities. We know how to speak the language of different groups of stakeholders, and most importantly, listen.
We are deeply integrated into the movement of creating vibrant, healthy, thriving communities – and this big picture vision is infused into every detail of our work.
Focus on the creation of healthy streets and livable spaces with long-lasting benefits to the community. We are committed to providing outcomes in the form of completed policies, programs, and knowledge that bring value to communities long after our work is complete.
Organizational Expertise

Safe Routes to School

Complete Streets

Community Engagement

Land Use and School Siting

Equity and Active Transportation

Active Transportation Policy and Programs
Portfolio of Services
