VITAL AND VIBRANT COMMUNITIES:
THE POWER OF WALKABILITY

NATIONAL WALKING SUMMIT

AMERICA WALKS

SEPTEMBER 13-15, 2017

INTERCONTINENTAL RIVERFRONT HOTEL
ST. PAUL, MINNESOTA
VITAL AND VIBRANT COMMUNITIES: THE POWER OF WALKABILITY

Welcome to the 2017 National Walking Summit!

America Walks is excited to host community advocates, nonprofit representatives, government officials, and transit, health, and planning professionals in the great city of St. Paul, where we will explore the creation and benefits of vital and vibrant communities.

Vital and vibrant communities build connections between individuals and the larger community, provide access to basic services, and support livability and wellness for everyone. These communities are places where arts and cultural expression are encouraged and celebrated. They make safety a priority and understand both the community and personal responsibility for maintaining safe places. They cultivate sustainable economic growth, promote civic engagement and value the protection of the environment and historical places. Every neighborhood can be vital and vibrant. The act of walking and the infrastructure that promotes walking for people of all ages and abilities is fundamental to building vitality and vibrancy. During this Summit, we will be exploring these topics and many more.

We are faced with many challenges as a movement. Community divides and health disparities challenge all of us. Segments of our population are not engaged in the conversation and are too often overlooked as we create livable spaces. Opportunities for work, school, play, and other vital parts of life are not available to all. Promoting safe walkable places and creating vital and vibrant communities provide feasible ways to bridge divides and address disparities. We hope the Summit will help you make connections, expand your thinking, and gain inspiration to continue to grow the walking movement.

We would like to thank our Local Host Committee, National Program Committee, partners at the Every Body Walk! Collaborative, and our Board of Directors for their support of this event. The Summit would not be taking place without the support of our generous sponsors committed to the work of the walking movement. We know that we are stronger together and have been fortunate to work with a set of individuals and organizations who are committed to creating vital and vibrant communities for all.

Kate Kraft

America Walks is celebrating 20 years of promoting safe, accessible, and enjoyable places to walk and to be physically active. As the only national organization exclusively dedicated to walking and walkable communities, we provide resources, training, and technical assistance for advocates on the ground. America Walks serves as a national voice for tens of thousands of community change agents across the US.

America Walks engages, equips, and mobilizes these walking champions, giving strength to a diverse walking movement that includes everyone regardless of age, ability, gender, and background. We are excited to see the growing demand for healthy, active, and engaged communities. America Walks stands ready to lead in the next 20 years as we continue the fight for making walking a basic human right.
